

Neutronic Feasibility Study of Dual-Cooled Annular Duplex PuO₂-ThO₂ Fuel for Next-Generation PW-SMRs: Assembly Level Analysis

Tuesday, 4 November 2025 14:00 (15 minutes)

Technical Track

Reactor Physics

Primary authors: Dr TAIBI, Oumaima (Laboratory of Materials and Subatomic Physics, Faculty of Sciences, Ibn Tofail University, Kenitra, Morocco); Prof. KABACH, Ouadie (Laboratory of Materials and Subatomic Physics, Faculty of Sciences, Ibn Tofail University, Kenitra, Morocco)

Co-authors: Prof. CHAKIR, El Mahjoub (Laboratory of Materials and Subatomic Physics, Faculty of Sciences, Ibn Tofail University, Kenitra, Morocco); Prof. GOUIGHRI, Mohamed (Laboratory of Materials and Subatomic Physics, Faculty of Sciences, Ibn Tofail University, Kenitra, Morocco); Prof. UZUN, Sinem (Faculty of Engineering and Architecture, Erzincan Binali Yıldırım University, Erzincan, Türkiye); Dr AMSIL, Hamid (National Center for Energy, Sciences and Nuclear Technique, Rabat, Morocco)

Session Classification: Fusion and Advanced Reactors
